About myself

I am a young web developer from Ukraine. I am 30 years old. Born and lived in the city of Kharkov. Because of Russia that started a war in my country, I had to leave my home. Now I live in Belgium with my family in Neupre and I am looking for a job.

Personal qualities

Punctuality, desire for development and knowledge of the new, responsibility, sociability, goodwill. When working with a team, I value feedback and code reviews from more experienced colleagues most of all.

Hobbies and interests

Without bad habits, I try to lead an active lifestyle, I like to ride a bike and go hiking.
